

FLOATING LEAF STUDIOS

STYLE GUIDE: SENIOR PORTRAITS

What to wear and what to avoid

We want to capture your personality through your style. We also want you to be truly comfortable in what you are wearing so we've made this guide to help you prepare for your session.

FOR THE LADIES

How to Prepare

1.

Plan outfits in their entirety. This means every look should be styled head to toe including the proper shoes, undergarments, and jewelry/props.

2.

Play with Solid Colors. Natural, solid colors work well with most backgrounds. Solid colors work great especially for close-ups. The focus will be on you rather than your outfit.

3.

Bring multiple outfits. Try a fancy or unique outfit in addition to a casual one to have variety and uniqueness in your images.

4.

Play with Layers. A denim jacket, cardigan, or or flannel shirt can help pull a look together. A well-fitting outer layer will enhance your body's silhouette and photograph nicely.

5.

Bring props. If you are an athlete or have something that has impacted your life BRING IT! Volleyball, soccer ball, golf club, dog, uniform, etc.
